JINGDONG Logistics' Sustainable Development Strategy

京东物流介绍 About JINGDONG Logistics

绿色仓储 Green Warehousing

绿色运输 Green Transportation

绿色科技 Green Technology

绿色包装 Green Packaging

绿色办公 Green Office

绿色生活 Green Lifestyle

京东物流的使命：技术驱动 引领全球高效流通和可持续发展

JINGDONG Logistics' mission: To drive global logistics efficiency and sustainability through technology

京东集团2007年开始自建物流，2017年4月正式成立京东物流集团，2021年5月，京东物流于香港联交所主板上市

JD.com began building its own logistics network in 2007. In April 2017, JINGDONG Logistics Group was officially established. In May 2021, JINGDONG Logistics was listed on the Main Board of the Hong Kong Stock Exchange.

京东物流是中国领先的技术驱动的供应链解决方案及物流服务商

JINGDONG Logistics is China's leading technology-driven provider of supply chain solutions and logistics services.

以“技术驱动，引领全球高效流通和可持续发展”为使命，致力于成为全球最值得信赖的供应链基础设施服务商

Guided by its mission to drive global logistics efficiency and sustainability through technology, JINGDONG Logistics strives to become the world's most trusted supply chain infrastructure service provider.

绿色发电
Green Power Generation

屋顶光伏总装机量达139.22兆瓦

The total installed capacity of rooftop PV systems reached 139.22 MW.

2024年全年光伏电力使用量61,143.92兆瓦时

In 2024, the annual photovoltaic power consumption will be 61,143.92 MWh

减少碳排放50,902吨

reducing carbon emissions by 50,902 tons.

绿色建筑
Green Buildings

18个物流园区包含绿色建筑

18 logistics parks incorporate green buildings

18个物流园区执行海绵城市设计

18 logistics parks implement sponge city designs

13个园区执行了装配式建筑

13 parks adopt prefabricated building methods

绿色仓库
Green Warehouses

10个园区被授予"绿色仓库"标识

10 parks have been awarded the "Green Warehouse" certification

一级（三星）绿色仓库 5 个

5 Grade 1 (3-star) green warehouses

二级（二星）绿色仓库 5 个

5 Grade 2 (2-star) green warehouses

绿色仓储
Green Warehousing

京东物流积极打造绿色低碳仓储物流园区

JINGDONG Logistics is actively developing green, low-carbon warehousing and logistics parks

以绿色基础设施建设和减碳技术创新为基础，积极推进绿色化建设和运营

by focusing on green infrastructure and carbon reduction technologies, driving sustainable construction and operations.

新能源车辆
New Energy Vehicles

截至 2024 年末，已在干线及终端运输环节投入公路运力自营新能源车超10000辆

By the end of 2023, more than 10000 new energy vehicles with highway transportation capacity had been deployed in trunk lines and terminal transportation links.

氢能源车队
Hydrogen Energy Fleet

行业首家规模化投用氢能源卡车的物流企业

We are the first logistics enterprise to deploy hydrogen energy trucks on a large scale.

氢能源车队可每天保障运输64条线路以上，截至年末共节约使用柴油60万升

The hydrogen-powered vehicles can support transportation on 64 routes per day, saving a total of 600,000 liters of diesel fuel by the end of the year.

绿色运输
Green Transportation

京东物流积极推广多种绿色运输方式

JINGDONG Logistics actively promotes various green transportation methods.

在全国范围内规模化投放使用新能源车，积极推进氢能源重卡、无人车等实践应用

New energy vehicles have been deployed nationwide, with active efforts to advance hydrogen-powered heavy trucks, autonomous vehicles, and other innovations.

优先选择碳排放较低的运输方式，持续强化燃油使用及其排放管理，不断构建更加绿色的运输网络

Low-carbon transportation modes are prioritized, and fuel consumption and emissions management are continuously improved to build a greener transportation network.

绿色科技
Green Technology

京东物流长期以来坚持技术投入，基于 5G、人工智能、大数据、云计算及物联网等底层技术

JINGDONG Logistics has long been dedicated to technological investment, leveraging foundational technologies such as 5G, artificial intelligence, big data, cloud computing, and the Internet of Things.

并将智能软件、硬件产品覆盖到包括园区、仓储、分拣、运输和配送等供应链的主要流程和关键环节

The company's intelligent software and hardware solutions are applied across key stages of the supply chain, including park operations, warehousing, sorting, transportation, and delivery.

将绿色、低耗能的设计理念融入整个规划及研发过程中

Green and low-energy design principles are integrated throughout the planning and development process.

绿色包装
Green Packaging

京东物流顺应绿色包装发展趋势，不断加强绿色包装材料的技术创新、变革与应用

Following the trend of green packaging, JINGDONG Logistics continuously enhances the technological innovation, transformation, and application of green packaging materials.

制定包装碳排放体系规划，围绕减量、复用、回收再利用、降解四大方向推进绿色包装实践

It has developed a packaging carbon emission system plan to promote green packaging practices in four key areas: reduction, reuse, recycling, and degradation.

用循环保温箱替代一次性泡沫箱冰袋干冰，使用寿命2年，单个箱子可使用次数超过180次，2024年，已投入96万个循环箱，累计使用次数超8,545万次，年度减少碳排放量72,520吨

In 2024, 960,000 recycled boxes have been put into use, with a cumulative number of more than 85.45 million times, reducing carbon emissions by 72,520 tons annually

行业内首个原厂直发包装认证标准

The industry's first certification standard for Delivered with Original Package

2020年，京东物流“原发包装”实践被写入

In 2020, JINGDONG Logistics' "Delivered with Original Package" (DWOP) practice was included in the

国家绿色包装发展规划的《关于加快推进快递包装绿色转型的意见》

"Opinions on Accelerating the Green Transformation of Express Packaging" within the national green packaging development plan,

为行业探索绿色低碳的包装模式提供借鉴

providing a reference for the industry to explore green and low-carbon packaging models.

职场运行优化
Workplace Operation Optimization

空调设备
Air conditioning equipment

细化供冷设备开启规则
The operating rules for refrigeration equipment have been refined,
包括制冷主机开启数量规则、出水和回水温度设置规则
including the rules for determining the number of running refrigeration units and the settings for supply and return water temperatures.

照明
Lighting equipment

制定照明设施运行方案优化
The operation plan for lighting facilities has been optimized,
对楼层独立区域照明、景观和公区照明等进行改造
including the upgrading of lighting systems in independent areas, landscapes, and public areas of buildings.

宣传倡导
Awareness and Advocacy

环保节日
Environmental awareness days

在世界关灯日、世界地球日期间开展节能活动
Energy conservation activities have been carried out during Earth Hour and World Earth Day,
开展节能降耗宣传的同时关闭部分照明
with some lighting turned off to promote energy-saving initiatives.

节能降耗宣传与提示
Energy saving and consumption reduction publicity and signs

定期进行节能降耗知识倡导
Energy saving and consumption reduction campaigns have been implemented regularly.
增减空调温度设置、照明开关、节约用水等提示标识粘贴
Signs about air conditioner settings, lighting switches, and water conservation have been put in place.

绿色办公
Green Office

京东物流将资源节约和环保意识充分融入职场建设和日常管理当中
JINGDONG Logistics fully incorporates resource conservation and environmental awareness into workplace development and daily management.

以规范化、智慧化、高效化的办公模式为驱动
Guided by a standardized, intelligent, and efficient working model,

在职场环境、办公和通勤模式等方面开展优化工作，致力于构建可持续的绿色办公场景
the company works to optimize workplace environments, office practices, and commuting methods, with the aim of creating sustainable green office solutions.

绿色生活
Green Lifestyle

京东物流始终致力于在整个社会层面倡导绿色生产低碳生活的行动和共识

JINGDONG Logistics has been committed to promoting green production and a low-carbon lifestyle while fostering societal action and consensus.

共创环境和社会价值，助力社会经济低碳转型

The company strives to create environmental and social value and facilitate the low-carbon transformation of the social economy.

号召全民共同守护绿色美好家园

We call on everyone to join us in protecting our beautiful, green homeland.

益起捡跑
Plogging Together

青流计划发起的公益捡跑活动

A public welfare plogging campaign initiated by the Green Stream Initiative

2024年在上海、广州、武汉、成都、廊坊五城同步开启

In 2024, the event was held simultaneously in Shanghai, Guangzhou, Wuhan, Chengdu, and Langfang.

成功吸引近10万跑友共同参与，捡跑总里程达27万公里，清理垃圾总重量约6万公斤

It attracted nearly 100,000 runners to participate, covering a total plogging distance of 270,000 kilometers and collecting about 60,000 kilograms of garbage.

分门别类意识工厂
Sorting Awareness Factory

青流计划发起的垃圾分类活动

A waste sorting campaign launched by the Green Stream Initiative

2019年，青流计划联合环球港共同发起减废计划倡议

In 2019, the Green Stream Initiative, in collaboration with Global Harbor, launched a Waste Reduction Initiative

共同收集生活中的废弃物流耗材、零售纸袋和旧衣

to collect discarded logistics materials, retail paper bags, and used clothing.

Evolution of the Green Stream Initiative

青流计划的发起

Launch of the Green Stream Initiative

青流计划发展时间线

Development Timeline of the Green Stream Initiative

青流计划

Green Stream Initiative

青流计划：京东物流的可持续发展战略项目

JINGDONG Logistics' Sustainable Development Strategy Project

青流计划是京东物流自2017年携手供应链上下游伙伴共同发起
The Green Stream Initiative was jointly initiated by JINGDONG Logistics and its supply chain partners in 2017.
以绿色供应链为核心
With a focus on green supply chains,
推动供应链端到端的绿色化、环保化
the initiative aims to promote end-to-end greening and environmental protection throughout the supply chain,
关注生态共生、生物多样性、人文关怀等
while also emphasizing ecological symbiosis, biodiversity, and humanistic care.

青流计划的发展时间线

Development Timeline of the Green Stream Initiative

2017.06.05

正式响应世界自然基金会发起的“中国纸制品可持续发展倡议（CSPA）”

JINGDONG Logistics officially endorsed the "China Sustainable Paper Alliance (CSPA)" initiated by the World Wide Fund for Nature (WWF)

2017.11.29

京东物流荣获物流行业唯一的“绿色物流企业”奖项

JINGDONG Logistics was honored as the sole recipient of the "Green Logistics Enterprise" award in the logistics industry

2017.12.07

京东物流投入使用青流箱

JINGDONG Logistics rolled out the use of "Green Stream" boxes

2019.08.22

京东物流制定中国首个电商行业包装测试标准

JINGDONG Logistics established China's first packaging testing standard for the e-commerce industry

2020.01.20

青流计划入选世界经济论坛“灯塔计划”

The Green Stream Initiative was selected as part of the World Economic Forum's "Lighthouse Project"

2020.09.18

世界零售大奖年度可持续零售倡议奖

Sustainable Retail Initiative of the Year at the World Retail Awards

2022.05.30

京东物流建成中国首个“碳中和”物流园区

JINGDONG Logistics completed the construction of China's first "carbon-neutral" logistics park

2023.04.11

同世界自然基金会，野生救援，大自然保护协会，中华慈善总会等达成战略合作，启动红树林生态修复计划

Reached strategic cooperation with the World Wide Fund for Nature, WildAid, The Nature Conservancy, China Charity Federation and other organizations, and launched the mangrove ecological restoration plan

2024.06.05

京东物流发布了全球物流行业首款订单维度供应链碳管理平台

JINGDONG Logistics introduced the world's first order-level supply chain carbon management platform for the logistics industry

03

青流计划里程碑
Milestones of the Green Stream Initiative

行业引领 Industry Leadership

生物多样性 Biodiversity

社会公益 Social Good

环保艺术 Environmental Art

公众互动 Public Engagement

全球合作 Global Collaboration

行业引领
Industry Leadership

青流计划始终重视技术创新在供应链全局优化中的巨大作用

The Green Stream Initiative has consistently emphasized the critical role of technological innovation in achieving end-to-end supply chain optimization.

基于5G、人工智能、大数据、云计算及物联网等底层技术，京东物流不断扩大软件、硬件和系统集成的三位一体的供应链技术优势

Leveraging foundational technologies such as 5G, artificial intelligence, big data, cloud computing, and the Internet of Things, JINGDONG Logistics continues to strengthen its integrated supply chain technology advantages across software, hardware, and system integration.

涵盖了包括园区、仓储、分拣、运输和配送等供应链的主要流程和关键环节

These capabilities span key stages of the supply chain, including park operations, warehousing, sorting, transportation, and delivery.

《中国纸制品可持续发展倡议》
"China Sustainable Paper Alliance (CSPA)"

2020年保尔森可持续发展奖
2020 Paulson Prize for Sustainability

中国首个零碳物流园区
China's First Zero-Carbon Logistics Park

COP27中国角——“气候行动与可持续消费”主题边会
COP27 China Pavilion - Side Event on "Climate Action and Sustainable Consumption"

全球物流行业首款订单维度供应链碳管理平台
The World's First Order-Level Supply Chain Carbon Management Platform for the Logistics Industry

全球首个快递即时配送物流服务的碳中和证书
The World's First Carbon Neutrality Certificate for Instant Delivery Logistics Services

“气候与低碳转型伙伴倡议”
"Climate and Low-Carbon Transition Partnership Initiative"

《中国纸制品可持续发展倡议》

China Sustainable Paper Alliance (CSPA)

2017年世界环境日，青流计划签署《中国纸制品可持续发展倡议书》，正式响应世界自然基金会发起的“中国纸制品可持续发展倡议”

On World Environment Day in 2017, the Green Stream Initiative signed the "China Sustainable Paper Alliance," officially joining the "China Sustainable Paper Alliance" launched by WWF.

通过减量化包装和物流技术创新和应用，物流耗材标准的统一

by reducing packaging, innovating and applying logistics technologies, as well as standardizing logistics consumables,

共同促进负责任纸张产品，特别是纸包装产品的回收、生产和利用，保护全球宝贵的森林资源

the Alliance aims to jointly promote the responsible recycling, production, and use of paper products, especially paper packaging products, to protect the world's precious forest resources.

青流计划获得2020年保尔森可持续发展奖

The Green Stream Initiative Received the 2020 Paulson Prize for Sustainability

该奖项旨在推动应对生态退化和生物多样性丧失的紧迫挑战的解决方案

This prize is designed to promote solutions to the urgent challenges of ecological degradation and biodiversity loss.

青流计划在保护环境、实现对资源的高效利用和循环利用等方面积极践行可持续发展战略

The Green Stream Initiative actively implements sustainable development strategies, focusing on environmental protection, and the efficient use and recycling of resources.

参与可持续消费推广，为行业提供可持续发展实践参考

The initiative also contributes to the promotion of sustainable consumption and serves as a reference for sustainable development practices within the industry.

中国首个“零碳”物流园区

China's First "Zero-Carbon" Logistics Park

2022年，“亚洲一号”西安智能产业园获得由北京绿色交易所和华测认证 (CTI) 颁发的碳中和认证双证书

In 2022, the "Asia One" intelligent industrial park in Xi'an was awarded dual carbon neutrality certifications by China Beijing Green Exchange (CBEEX) and Centre Testing International (CTI).

园区实现了仓储屋顶分布式光伏发电系统和储能系统的应用，自主中和部分温室气体排放

The park implemented a distributed PV power generation system and an energy storage system on the warehouse roof, enabling it to independently neutralize part of its greenhouse gas emissions.

剩余排放量在北京绿色交易所的支持和指导下，通过购买国家核证自愿减排量CCER进行抵消，实现2021年度西安智能产业园区的碳中和

For the remaining emissions, with the support and guidance of the CBEEX, the park offset them through the purchase of the China Certified Emission Reductions (CCERs), achieving carbon neutrality in 2021.

COP27 青流计划分享“气候行动与可持续消费”发展经验

At COP27, the Green Stream Initiative Shared its Insights on "Climate Action and Sustainable Consumption"

COP27是全球规模最大、影响力最高的气候相关会议之一，是各国讨论和制定应对气候变化策略的重要平台

COP27 is one of the world's largest and most influential climate conferences, serving as a key platform for countries to discuss and formulate strategies to tackle climate change.

青流计划参与COP27中国角——“气候行动与可持续消费”主题边会

The Green Stream Initiative participated in the COP27 China Pavilion's side event on "Climate Action and Sustainable Consumption."

依据“不同领域中的可持续生活解决方案”议题，与多个行业企业进行了探讨交流

Focusing on the theme of "Sustainable Living Solutions in Various Fields," we engaged in discussions and exchanges with enterprises across multiple industries.

全球物流行业首款订单维度供应链碳管理平台

The World's First Order-Level Supply Chain Carbon Management Platform for the Logistics Industry

全球首款经核证的吸纳中国碳排放因子库的最小颗粒度、真实轨迹的物流运输碳足迹管理平台

This is the world's first certified logistics transport carbon footprint management platform that incorporates China's carbon emission factor database with the finest granularity and real trajectory data.

在“供应链碳管理平台”中实现碳足迹可视化、规划、优化、风险评估和多维度的运输优化

This platform enables carbon footprint visualization, planning, optimization, risk assessment and multi-dimensional transportation optimization.

计算结果符合 ISO14064/14067、PAS2050/2060 以及国家发改委和生态环境部的碳披露要求

The calculation results comply with ISO14064/14067, PAS2050/2060, as well as the carbon disclosure requirements of the National Development and Reform Commission and the Ministry of Ecology and Environment of the PRC.

全球首个快递即时配送物流服务的碳中和证书

The World's First Carbon Neutrality Certificate for Instant Delivery Logistics Services

京东物流持续为某全球知名科技企业提供在中国的即时配送服务，并基于此进行供应链碳足迹追踪

JINGDONG Logistics continues to provide instant delivery services in China for a globally renowned technology company, while also tracking the carbon footprint of the supply chain.

通过数据分析精准实施减碳技术

By leveraging data-driven analysis to implement precise carbon reduction technologies,

成为中国首个自主贡献订单全生命周期碳中和服务的物流运输供应商

JINGDONG Logistics has become China's first logistics provider to independently offer carbon-neutral services covering the full lifecycle of orders.

“气候与低碳转型伙伴倡议”

Climate and Low-Carbon Transition Partnership Initiative

在2024年，第十六届国际交通技术与设备展览会

At the 16th International Transportation Technology and Equipment Exhibition in 2024,

青流计划携手迪卡侬物流中国、蒙牛集团、晶澳科技、长城商用车、米其林中国、鄂尔多斯等

the Green Stream Initiative, together with Decathlon Logistics China, Mengniu Dairy, JA Solar Technology, Great Wall Commercial Vehicles, Michelin China, and ERDOS,

在交通运输部中国国际可持续交通创新和知识中心的见证和支持下，共同发布了“气候与低碳转型伙伴倡议”

jointly launched the "Climate and Low-carbon Transition Partnership Initiative" under the witness and support of the Global Sustainable Transport Innovation and Knowledge Center of the Ministry of Transport.

熊猫后院计划

Wild Giant Panda Protection Plan

守护濒危物种

Protecting Endangered Species

红树林生态修复计划

Mangrove Ecosystem Restoration Program

第八届IUCN亚洲自然保护论坛

8th IUCN Asia Regional Conservation Forum

生物多样性
Biodiversity

青流计划深刻认识到生物多样性对地球生态平衡的重要性

The Green Stream Initiative deeply understands the critical role of biodiversity in maintaining the ecological balance of the Earth.

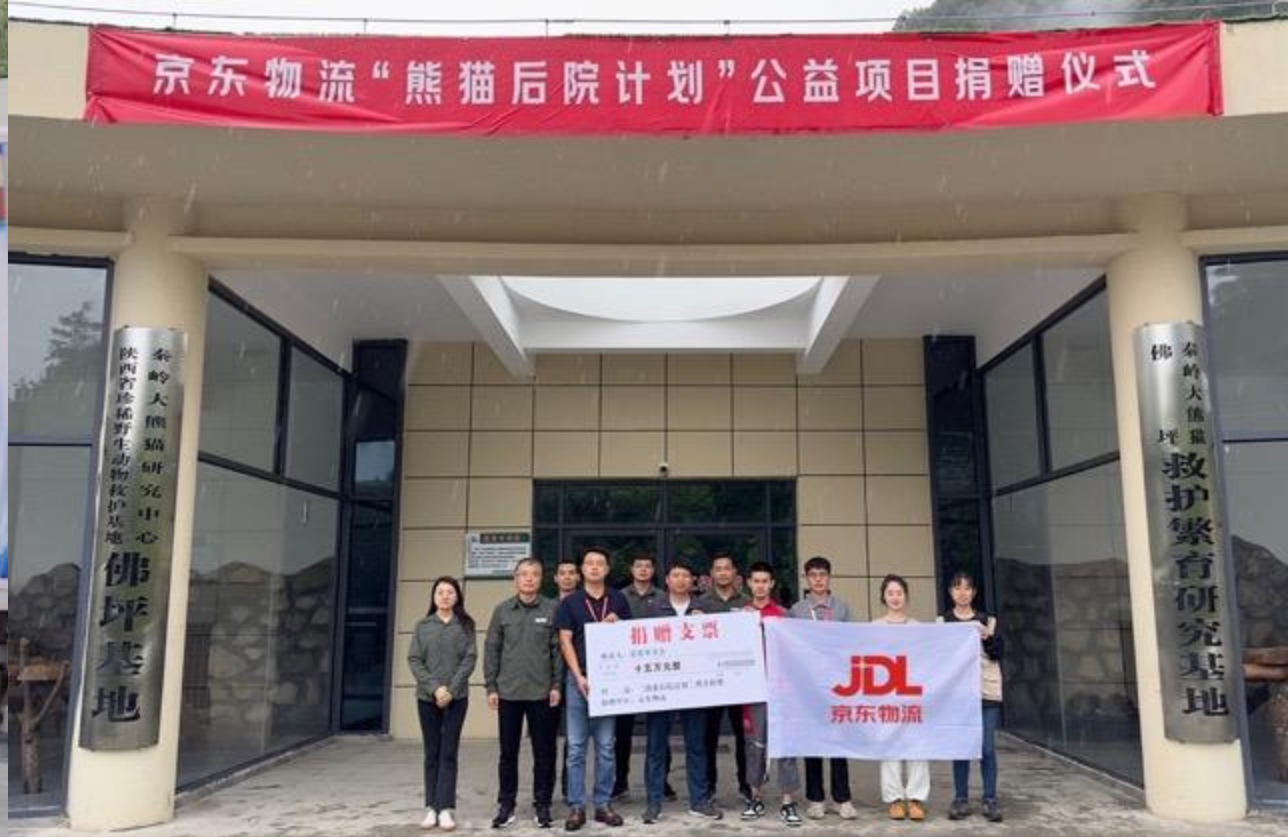

青流计划启动以来，始终将生物多样性保护纳入企业战略，通过技术创新和多领域合作，积极推动生态系统修复、物种保护和公众意识提升

Since its inception, the Green Stream Initiative has incorporated biodiversity conservation into its corporate strategy, actively advancing ecosystem restoration, species protection, and public awareness through technological innovation and cross-sector collaboration.

致力于构建可持续发展的生态环境，为行业的绿色发展贡献自己的力量

We are dedicated to fostering a sustainable ecological environment and contributing to the green development of the industry.

熊猫后院计划

Wild Giant Panda Protection Plan

2023年，青流计划联合京东公益、爱德基金会、青野生态发起“熊猫后院计划”公益项目

In 2023, the Green Stream Initiative, in collaboration with JD Foundation, The Amity Foundation, and Qingye Ecology, launched the Wild Giant Panda Protection Plan public welfare program,

为佛坪秦岭大熊猫救护繁育研究基地的野生大熊猫筹集环境改造资金与物资

aimed at raising funds and supplies to improve the environment for wild giant pandas at the Foping Qinling Giant Panda Rescue and Breeding Research Base.

旨在切实为大熊猫救助野化工作提供保障，摸索出一条适合原生地大熊猫野放救助的管理模式

The program seeks to provide robust support for the rescue and rewilding efforts of giant pandas, while also exploring a management model tailored to the release and rescue of wild giant pandas in their native habitats.

守护濒危物种

Protecting Endangered Species

青流计划联合中国快递协会、一个地球自然基金会

The **Green Stream Initiative**, in collaboration with China Express Association and ONE PLANET,

发起“守护濒危物种、抵制非法野生动植物及其制品寄递的行动倡议”

has launched the Action Initiative to Protect Endangered Species and Combat the Illegal Delivery of Wild Fauna and Flora.

在中国范围内投放了一亿张“守护生物多样性”主题面单

As part of this initiative, 100 million express order sheet featuring the theme "Protecting Biodiversity" have been distributed across China.

在中国云南省昆明市，打造了物流行业内首个“守护生物多样性”主题示范站点

Additionally, the first logistics industry demonstration site themed "Protecting Biodiversity" has been established in Kunming, Yunnan Province.

红树林生态修复计划

Mangrove Ecosystem Restoration Program

2024年世界环境日，青流计划联合一个地球自然基金会，横琴粤澳深度合作区城市规划与建设局

On World Environment Day in 2024, the Green Stream Initiative, in collaboration with ONE PLANET and the Urban Planning & Construction Bureau of the Guangdong-Macao In-Depth Cooperation Zone in Hengqin,

在世界自然基金会技术支持下，修复中国横琴国家湿地公园（二井湾）红树林生态系统

and with technical support from WWF, launched a project to restore the mangrove ecosystem in Hengqin National Wetland Park (Erjingwan).

为期一年，总计约20000平方米，形成红树林湿地人工种植修复模式示范点

The year-long project will cover approximately 20,000 square meters, aiming to establish a demonstration site for the artificial planting and restoration model of mangrove wetlands.

第八届IUCN亚洲自然保护论坛

8th IUCN Asia Regional Conservation Forum

2024年，青流计划作为绿色物流行业的杰出代表，受世界自然基金会 (WWF) 邀请

In 2024, as a leading representative of the green logistics industry, the Green Stream Initiative was invited by the WWF

讨论在未来实现亚洲和世界自然受益的关键变革方向和行动

to discuss key transformative directions and actions aimed at benefiting nature in Asia and around the globe,

以最有效地应对未来20年关于环境和生物多样性的挑战

with the goal of effectively addressing the environmental and biodiversity challenges of the next 20 years.

“盒以为家”

社会公益
Social Good

青流计划始终认为，只有积极承担企业的社会责任，才能真正实现商业价值与社会价值的和谐统一

The Green Stream Initiative firmly believes that only by actively fulfilling corporate social responsibilities can we truly achieve the harmonious integration of commercial value and social value.

我们积极投身公益事业，开展内容形式丰富的社会公益项目与志愿服务活动

We are deeply committed to public welfare, engaging in diverse social welfare projects and volunteer service activities.

同利益相关方一起携手为共 建可持续、更美好的社会而努力

Together with our stakeholders, we strive to build a more sustainable and better society.

盒以为家

Home for Hope

2018年以来，青流计划联合亚洲动物基金会、它基金、农夫山泉、快手、几何汽车、T3出行等

Since 2018, the Green Stream Initiative, in collaboration with Animals Asia Foundation, Ta Foundation, Nongfu Spring, Kuaishou, GEOME, and T3Go,

通过快递盒二次改造成爱心动物小窝并在全国漂流投放

has been transforming used parcel boxes into cozy animal shelters and distributing them across the country

号召更多人关爱小动物

to encourage more people to care for animals.

尽责尽美 重塑新生 环保运动场

From Plastics to Brilliance: A Sustainable Sports Facility Reborn

2021年世界环境日，青流计划与宝洁携手在江苏南京外国语大学仙林分校宿迁学校建成新型环保运动场

On World Environment Day in 2021, a new sustainable sports facility was completed at Suqian School, Nanjing Xianlin Foreign Language School in Jiangsu Province. The project was supported by the Green Stream Initiative in collaboration with P&G.

通过青流计划绿色供应链体系，回收消费者家中的废弃塑料瓶，通过宝洁公司的资源回收网络，经过特殊加工处理材料制作

Through the Green Stream Initiative's green supply chain system and P&G's resource recycling network, waste plastic bottles from consumers' homes were collected, recycled, and processed using specialized techniques.

符合中小学运动场地国家标准，成为物流行业绿色可持续发展的标杆性项目

The facility meets the national standards for primary and secondary school sports venues and has become a benchmark project for the green and sustainable development of the logistics industry.

青流计划 × 知乎 “地球「碳」知计划”

"Earth Carbon Knowledge Campaign" Launched by the Green Stream Initiative and Zhihu

2022年，青流计划联合知乎，围绕双碳双减问题，进行知识内容宣讲

In 2022, the Green Stream Initiative collaborated with Zhihu to promote awareness and knowledge around the issues of "dual carbon" (carbon peaking and carbon neutrality) and "dual reduction" (pollution reduction and carbon reduction).

邀请国内高校环保专家学者，专业答主以及广大用户参与互动讨论

The campaign invited environmental protection experts and scholars from domestic universities, as well as professional contributors and a wide range of users, to participate in interactive discussions.

超过十万个京东快递盒被改造成“碳”知计划问答箱，呼吁大众积极了解“碳”知识

More than 100,000 JD parcel boxes were repurposed into Carbon knowledge Q&A boxes, encouraging the public to actively learn about and engage with carbon-related knowledge.

“交换一小时”

"Barter for an Hour"

2023年以来，青流计划在北京、武汉、上海、深圳、广州、成都等城市开展了30+场“交换一小时”活动

Since 2023, the Green Stream Initiative has organized over 30 "Barter for an Hour" events in cities such as Beijing, Wuhan, Shanghai, Shenzhen, Guangzhou, and Chengdu.

旨在通过促进资源的循环利用，减少浪费，提升公众的环保意识

The initiative aims to promote resource recycling, reduce waste, and raise public awareness about environmental protection.

净滩行动 青流海洋
香港海洋净滩

Clean the Beach, Green Stream Ocean: Plastic Cleanup at the Beach in Hong Kong

2023年，青流计划与共融未来基金会在香港长洲东湾海滩发起海滩清洁环保公益活动

In 2023, the Green Stream Initiative and the United Future Foundation launched a public welfare activity focused on beach cleanup and environmental protection at Tung Wan Beach, Cheung Chau, Hong Kong.

将海滩回收的海玻璃循环利用，制作成彩绘饰品，共同守护香港海洋环境

The initiative aimed to recycle sea glass collected from the beach and transform it into hand-painted jewelry, working together to safeguard Hong Kong's marine environment.

循环影票 青流再造
影票回收计划

Circular Movie Tickets: Green Stream Ticket Recycling Program

2023年，青流计划联合英皇电影、英皇影院共同合作“金手指”影票回收计划

In 2023, the Green Stream Initiative partnered with Emperor Motion Pictures and Emperor Cinemas to launch a "The Goldfinger" movie ticket recycling program.

庄文强导演作为青流计划首席“推介官”开启北京、成都、深圳三地影票回收活动

Director Felix Chong, serving as the chief ambassador of the Green Stream Initiative, kicked off ticket recycling events in Beijing, Chengdu, and Shenzhen.

知识循环 万向青流 图书公益计划

Knowledge Circulates, Green Stream Leads: Book Sharing Program

青流计划联合京东公益，自2024年开始每月捐赠图书并在全国各地建设共享图书角

Starting in 2024, the Green Stream Initiative, in partnership with JD Foundation, donates books every month and establishes shared book corners in communities across the country.

包含北京乐予基金会、惠山区阳山镇阳山村民委员会、重庆大悦城领阅空间、湖北省志愿者协会、四川省慈善联合总会、中华慈善总会、上海市静安区政府等，累计捐赠12299本

Organizations including Beijing Le Share Foundation, Yangshan Village Committee of Yangshan Town in Huishan District, Chongqing Joy City Lingyue Space, Hubei Volunteers Association, Sichuan Provincial Charity Federation, China Charity Federation, and Shanghai Jing 'an District Government, have donated a total of 12,299 books to date.

致力于推动承载着知识价值的图书持续循环流通

This initiative is dedicated to fostering the continuous circulation of books that carry intellectual and educational value.

自然向好 万向青流
校园塑料空瓶回收计划

Nature Thrives, Green Stream Leads: Campus Plastic Bottle Recycling Program

2024年世界海洋日，青流计划联合OPF，在世界自然基金会技术支持下，开启校园塑料空瓶回收计划

On World Oceans Day in 2024, the Green Stream Initiative, in collaboration with OPF and with technical support from WWF, launched a campus plastic bottle recycling program.

在华南理工大学、华南师范大学、华南农业大学、广东财经大学、广东药科大学、广州大学六校同步开展

The program was simultaneously implemented at six universities: South China University of Technology, South China Normal University, South China Agricultural University, Guangdong University of Finance and Economics, Guangdong Pharmaceutical University, and Guangzhou University.

环保艺术
Environmental Art

青流计划深刻认识到艺术在环保宣传和教育中的独特作用

The Green Stream Initiative fully recognizes the unique role of art in environmental advocacy and education.

将自然之美与艺术创作相结合，唤起公众对环境保护的关注和行动

By integrating the beauty of nature with artistic creation, it inspires public concern and action for environmental protection.

提升公众的环保意识，促进社区，为可持续发展注入了新的活力

This approach enhances environmental awareness, fosters community engagement, and injects new vitality into sustainable development.

New Life for Plastics, Green Stream Leads: Environmental Art Exhibition

2024年世界红树林日，青流计划联合艺术家袁隆，把在广东六所高校回收的塑料空瓶制作成大型环保艺术装置

On World Mangrove Day in 2024, the Green Stream Initiative, in collaboration with artist Yuan Long, transformed empty plastic bottles collected from six universities in Guangdong into a large-scale environmental art installation.

作品的顶部结构由六千多个废旧塑料瓶编织而成，形成震撼的视觉效果

The top structure of the artwork was intricately woven from over 6,000 discarded plastic bottles, creating a breathtaking visual impact.

希望大家积极应对生态环境问题，守护我们的美好家园

We hope this inspires everyone to actively address ecological and environmental challenges and work together to protect our beautiful planet.

蒙特勒(中国)爵士音乐节

Montreux (China) Jazz Festival

作为世界三大爵士音乐节之一，蒙特勒爵士音乐节成为推动国际文化交流的重要平台

As one of the world's three major jazz festivals, the Montreux Jazz Festival has become a significant platform for fostering international cultural exchanges.

青流计划在主旨演讲中分青流的故事，探讨了中国生物多样性保护的未来方向

During the keynote speech, the Green Stream Initiative shared our story and discussed the future direction of biodiversity conservation in China.

公众互动
Public Engagement

包裹的旅行是青流计划减碳计划中的重要一环

Parcel Travel is a key component of the Green Stream Initiative's carbon reduction plan.

旨在连接用户，承接建立碳积分及与用户互动部分内容，培养减碳意识，宣传减碳知识

Its goal is to connect with users, facilitate the establishment of carbon credits, and engage in user interaction to raise awareness about carbon reduction and promote knowledge on the subject.

影响和发动更多力量加入，形成绿色物流的正向循环

By doing so, we seek to inspire and mobilize broader participation, creating a positive cycle of green logistics.

全球合作
Global Collaboration

青流计划深刻认识到全球合作在环境保护中的重要性

The Green Stream Initiative fully acknowledges the critical role of global collaboration in environmental protection.

同全球头部NGO和品牌方建立紧密合作关系，共同推动环境可持续发展

We forge strong partnerships with leading global NGOs and brands to advance environmental sustainability together.

提升国际影响力，促进最佳实践的共享和创新解决方案的应用，为全球环境保护事业贡献力量

By strengthening international influence, facilitating the exchange of best practices, and promoting the adoption of innovative solutions, we make meaningful contributions to global environmental protection.
